Parrish Of St. John The Divine Squamish  
PO BOX 236  
Garibaldi Highlands, BC  
V0N 1T0

Dear Parrish Of St. John The Divine Squamish,  
I would like to sincerely thank you for supporting the Squamish Hospital Foundation. The community has come together to help fund equipment that is assisting SGH in caring for patients now during Covid and will also enhance the hospital in the coming years.

Your generous donation of **\$1,005.70**, targeted to help fight the Covid Pandemic has allowed the Squamish Hospital Foundation to make the following purchases:

**Life pack and Crash Cart- \$18,898-** A Life Pack is a portable compact defibrillator designed to treat cardiac arrest patients and provide continuous cardiac monitoring capabilities. The crash cart is a set of trays/drawers/shelves on wheels used for transportation and dispensing of emergency medication/ equipment on site.

**2 x Oxygen Concentrators for Hilltop House- \$3,676-** Oxygen Concentrators help to support patients who require a higher flow/rate of oxygen due to respiratory disease.

**2 x inpatient beds- \$25,252-** New inpatient beds will enhance the level of comfort for patients while helping to increase the beds available at SGH.

**Glidescope- \$40,000-** The Glidescope assists with smoother intubation while allowing healthcare teams to visualize the airway on a monitor, giving greater physical distancing than traditional intubation techniques.

We would like to thank the front-line health care workers, grocers, truck drivers, delivery drivers, public servants and everyone else who is helping to keep our communities up and running, we see and appreciate the sacrifice all community members are making.

Thank you again for your generous support of the Squamish Hospital Foundation, donations to the Foundation are instrumental in ensuring the needs of our growing community are continually being met.  
Sincerely,

Alison Hopkins  
President  
Squamish Hospital Foundation
