

**Salt Creek Baptist Church**  
**Children's Ministries**  
**Wellness Policy**

In order to maintain a safe, healthy environment for all who participate, we request that Children's Ministries staff and volunteers, as well as participating family members and children, adhere to the following wellness policy.

Please stay home from the Children's Program or Event if:

1. You have had a fever or elevated temperature above 100.3 degrees within the last 72 hours.
2. You have had vomiting or diarrhea within the last 48 hours.
3. You have a persistent cough or congestion that is not attributed to allergies.
4. You have been diagnosed with any contagious communicable disease for which you have not yet been treated or are still in the contagious stage of the disease.

If a child becomes ill or shows signs of illness while participating in a Children's program or event, the parent or responsible party will be contacted to take the child home.

If you are experiencing illness, we would be happy to be praying for you and to provide learning materials you can use at home. We sincerely appreciate your willingness to stay home in order to protect others from illness.
