**Wild Church is a sacred nature-based experience to awaken deep love for self, earth and all living beings for the survival and healing of the planet.** It is a new expression of church where Mystery is experienced, not explained. For two separate weeks this summer, the Sorrento Centre is partnering with Wild Church BC. Our programming and worship each day will follow the four directions. Our goal is for participants to experience the Wisdom of the Creator through creation using all senses, to learn to love the land and its occupants as neighbours, and to help change the perspective from “this land belongs to us” to “we belong with this land.” The creative expression will be varied. Interested? Click on the links for either of the two weeks above or [click here for Wild Church BC](#).
