

#### SUPPLIES NEEDED:

- 1 paper bag
- Scissors
- Green construction paper
- Sharpie or markers
- Optional: Paper, Tape, Glue, Ruler

#### DIRECTIONS

Start by cutting 3 inches off the top of a paper bag and then cut 3 inches of strips from the top of the bag. Flatten the bag before you write, "My Giving Tree" on the front of the bag.

Next, take out your green construction paper and cut 3-inch strips on the right side. Use a marker to write what you are grateful for or how you show kindness on each strip. Use as many separate pages of green paper as you need.

Then, place the construction paper inside the bag with the left side facing down. Gently squeeze the neck of the tree and tug the green strips in between the brown paper bag strips.
